

THE MINE READY HAND CHAIN HOIST

COFFING LHH-M Mining Hand Chain Hoist's standard features separate Coffing Hoists from all others. These units feature zinc plated through-hardened load chain, zinc plated hand chain, special latches and hooks. These steel framed hand chain hoists are lightweight, durable and are ideal for all types of mining applications. All LHH-M hoists are metric rated.

CAPACITIES & LIFT - Rated loads from 1/2 to 3 Tons with standard lifts of 10, 15, and 20 feet. Other lifts and hand chain drops are available. Capacities up to 50 Tons available in standard LHH Models.

MINE READY - Standard features; zinc plated through-hardened load chain, zinc plated hand chain, heavy duty cast hook latches, durable baked-on powder coat finish.

COMPACT & LIGHTWEIGHT - Designed for portability and easy installation. Compact gear housing provides low headroom. Stamped steel housing withstands rugged conditions.

EASY TO OPERATE - Lubricated bearings and bushings, bearing-mounted pinions, and heat-treated spur gearing ensure smooth, efficient operation with minimal effort and chain overhaul.

SAFETY & LOAD CONTROL - Mechanical load brake engages instantly for precise load holding and positioning.

EASY TO MAINTAIN - Designed for easy inspection and maintenance. Hoist can be dismantled easily with simple hand tools.
