ED 1/2 - 2 Ton
• Extended duty motor.
  • Standard lift is 10 feet.
  • Totally enclosed, fan-cooled motor for extended operation.
  • Highly adaptable for automated plating, heat treating, steel warehouse, foundry, and machine shop use.

EC 1/4 - 4 Ton
• Designed for special applications.
  • Standard lift is 15 feet.
  • Heavy-duty, specially modified electric chain hoist with two load hooks.
  • Completely inverts virtually any shape load with use of simple slings and successively repositioned load hooks.

MT 1/4 - 5 Ton
• Motorized trolley.
  • Trolley sideplates feature heavy duty bumpers to act as safety lugs and to protect wheels.
  • Available to fit wide-flange and patented track beams.
  • Single and two-speed motorized models.

CBT 1/4 - 5 Ton
• Motorized trolley.
  • Designed to provide superior performance and long, efficient service.
  • Wrap-around side plates act as safety lugs and protect wheels.
  • Dual tread wheels fit tapered or flat beam flange within range of adjustment.
  • Wheels include permanently lubricated, shielded ball bearings.

CTA 1/4 - 5 Ton
• Motorized trolley.
  • Designed for easy operation with minimal effort.
  • Wrap-around side plates act as safety lugs and protect wheels.
  • Spark and corrosion resistant wheels available. Track clamps available on 1/4 to 4 ton models.

CYA 4 - 25 Ton
• Plain & geared trolley.
  • For rugged, heavy duty service.
  • Available to fit wide-flange and patented track beams.
  • Equipped with eight sealed Timken tapered roller bearings and grease fittings.

VT-A 1/4 - 5 Ton
• Push type trolley.
  • Quick set-up with unique dial fit adjusting collar.
  • Fitted American Standard beams, wide-flange and patented track beams.
  • Hardened wheels and stamped steel side plates.
  • Negotiates small radius curves.

BC 1 - 10 Ton
• Beam clamp.
  • Special clamp jaw design reduces flange stress by distributing load away from flange edge.
  • Built-in suspension bar provides lower headroom.

Customize with Coffing®

• Bridge Crane Kits
• Jib Cranes
• Lodgerail™ Systems
• Chain Containers
• Cord Reels
•Fastening Packages
• Bronze Wheels / Hooks
• Zinc Plated Chain / Hooks
• Variable Speed Control
• Stainless Steel Chain
• NEMA Push Button Stations
• Infrared Remote Control

WARNING
Overloading and Improper Use Can Result In Injury

Do Not Attempt to
• Overload crane; use lifting beam, hoist, hoisting rigging, or otherwise.
• Use any other method to lift or hoist your Load.
• Use only lifting hooks and apparatus for overhead lifting.
• Exceed your safety rating.

Product Guide
ELECTRIC CHAIN HOISTS • WIRE ROPE HOISTS • AIR POWERED HOISTS • HAND CHAIN HOISTS • RATCHET LEVER HOISTS • TROLLEYS
LSB-B 3/4 - 6 Ton
- Standard lifts are 10, 15, and 20 feet.
- Hook, lug, plain, geared, and motorized trolley suspensions.
- 5-pocket load sheave improves chain support and reduces wear.
- Overload limiting clutch guards against lifting of damaging overloads.
- Adjustable upper and lower limit switches prevent overtravel.
- Dual-braking system - motor and load brakes.
- Steel housing.
- Easy to free chain.
- Optional load sheave.

Ratchet Lever Hoist
- 10, 15, and 20 feet.
- Precise positioning.
- Handle assures long handle effort.
- Short 360° rotating handle.

Longer Lifts Available On Most Hoists – Please Call For More Information

EC 1/4 - 5 Ton
- Standard lifts are 10, 15, and 20 feet.
- Hook, lug, plain, geared, and motorized trolley suspensions.
- Oil bath transmission - gears run longer, quieter.
- Overload limiting clutch guards against lifting of damaging overloads.
- Adjusted upper and lower limit switches prevent overtravel.
- H4 duty cycle. Rated for commercial & industrial applications.

JLC 1/4 - 2 Ton
- Electric Chain Hoist
- Standard lift is 5 feet.
- Heavy-duty, lightweight, compact design. Great for commercial and industrial applications.
- Standard protector overload device.
- 10-pocket oblique lay liftwheel provides longer chain life.
- Variable flow, two lever pendant for precise load spotting.
- Industrial duty air motor for tough applications.

SLA 250 - 1000 lb.
- Electric Chain / Wire Rope Hoists
- Standard lift is 10 feet.
- Hook suspension.
- Very compact and lightweight.
- Standard protector overload device.
- Thermally protected hoist duty motor.
- Epoxy powder coat finish.
- Job proven - industrial and commercial applications.

EC 1/4 - 5 Ton
- Standard lifts are 10, 15, and 20 feet.
- Hook, lug, plain, geared, and motorized trolley suspensions.
- Oil bath transmission - gears run longer, quieter.
- Overload limiting clutch guards against lifting of damaging overloads.
- Adjustable upper and lower limit switches prevent overtravel.
- H4 duty cycle. Rated for commercial & industrial applications.

TMM-140A
- 140 kg / 300 lb.
- Rotary vane motor provides high, uniform torque for quick response and smooth, quiet operation.
- Self-winding, galvanized wire stores internally.
- Handle-mounted pendant control provides one-handed operation.
- Disc brake secures load.

LHH 1/2 - 50 Ton
- 250 - 1000 lb.
- Standard lift is 10 feet.
- Swivel top and bottom hooks w/ safety latches standard.
- Grounded 3-prong plug – easy installation in any std. 115V outlet.
- Compact design
- Upper and lower limit switches.
- Thermal motor protection.
- Light duty operation.

EMC 300 - 500 lb.
- EMW 500 lb.
- Electric Chain Hoist
- Lift heights to 10 feet.
- Standard protector overload device.
- Overload device.

LSB-B 3/4 - 6 Ton
- Standard lifts are 5, 10, 15, and 20 feet.
- Low handle effort.
- Short 360° rotating handle assures precise positioning.
- Optional load sheave available.
- Easy to free chain.
- Steel housing.

TB-602 550 lb.
TB-603 1100 lb.
- 5 ft. and 10 ft. lifts available.
- Hardened link-type steel load chain and Weston-type load brake are standard.
- Lightweight and compact. Easy tool box storage.
- Impact resistant.

SLA 250 - 1000 lb.
- Electric Chain / Wire Rope Hoists
- Standard lift is 10 feet.
- Hook suspension.
- Very compact and lightweight.
- Standard protector overload device.
- Thermally protected hoist duty motor.
- Epoxy powder coat finish.
- Job proven - industrial and commercial applications.

RA 3/4 - 6 Ton
- Standard lift is 5 feet.
- Dual ratchet and pawl design provides easy operation.
- Link chain.
- Aluminum housing.
- Multiple rigging options.

G Model 3/4 - 15 Ton
- Standard lift is 5 feet.
- Single or double-locking pawl models available.
- Can be used to lift or pull.
- Easy operation from either side.
- Roller chain.
- Malleable iron housing.

Cable Hoists 3/4 - 2 Ton
- Single and double line.
- Lift heights to 29 feet.
- Reversible handle bend when overloaded.
- Lightweight and rugged.
